Edinburgh Napier University

2024 - 2026

TECHNICAL SKILLS

- HTML5
- CSS3
- JavaScript
- Bootstrap
- MySQL
- Responsive Web Design
- Front-end Development
- Website Layout Design

ABOUT ME

Motivated Web Design and Development student with experience creating responsive websites through academic and personal projects. Skilled in HTML, CSS, JavaScript, Bootstrap and basic MySQL, with an interest in front-end development and user-focused web design.

PROJECT HIGHLIGHTS

BIKE WEBSITE

- Developed a responsive e-commerce style website using HTML, CSS, JavaScript and Bootstrap.
- Organised bicycles, accessories and services into a clear multi-page layout.

BIKE WEBSITE REDESIGN

- Redesigned an earlier website project to improve layout, responsiveness and visual presentation.
- Applied stronger front-end development skills to create a more user-focused browsing experience.

ACCOUNT MANAGEMENT WEBSITE

- Built a multi-page website with login, registration, dashboard and account-related sections.
- Used basic MySQL knowledge to support user authentication and account functionality.
